

Thank you for trusting Advanced Eye Institute for your eye care needs. Dr. Quentin Falgoust very much looks forward to seeing you for a cataract evaluation on:

In addition to determining whether a cataract is affecting your vision, we will evaluate your overall eye health and your ability to see up close and at a distance. If we determine that you have a cataract, we will discuss with you all of your options for treatment, based on both your lifestyle and eye health.

- Thanks advances in intraocular lens technologies, there are new options for restoring vision loss due to cataracts. These new lenses such as the **AcrySof® ReSTOR®** and **The ReZoom™ Multifocal Lens** can provide provides the ability to see at near (reading vision), intermediate (cooking or computer) and far (driving) distances for most people – without depending on glasses in most situations.

We will make every effort to understand what is important to you and recommend a vision solution to meet your individual needs.

Sincerely,

Quentin Falgoust, M.D.
